About me

Hello everyone, I am currently working as a frontend developer. I have been developing websites with my team using new technologies. During my work, I learned how to work with a team and I am still learning. My team and I communicate on Slack to resolve issues. I have been involved in several large projects.

Education

National Unversity of Uzbekistan   Sep 2021 - Present
Toshkent city
Major is Information Systems and Technologies

Work Experience

Frontend Developer   Aug 2022 - Present
Support IT Solutions, Tashkent, Uzbekistan
I have been working in ***Support - IT company*** . During this time, I learned technologies such as
- *Tailwind Css,*
- *Redux,*
- *Next Js,*
- Working effectively with the backend,
- Work with Team on Github

and others perfectly. These technologies helped me a lot in creating websites. The urls of these sites:
- https://new-intex.vercel.app/ ; together with the admin page, I used technologies 1. Next Js, 2. Tailwind, 3. JavaScript, 4. Redux && Context and some Libraries. We made the admin version in React Js.
- https://transportation-services.vercel.app/ for logistics , and it continues. I used technologies 1. Next Js, 2. Tailwind, 4. Context and some Libraries.

I would not be wrong to say that creating these projects was a great

Personal details

Date of birth
November 30, 2003

Nationality
Uzbek

Languages

Uzbek(native), English

Courses

Najot Ta'lim
Oct 2021
I studied at Najot Ta'lim for 6 months.

Hard skills

- Html

- Bootstrap
- Tailwind Css
- JavaScript
- React Js
- Next Js
- Redux (basic)
- Axios, Fetch
- Git (Github, Gitlab)
- TypeScript
- Slack
- Testing (Jest) basic
- Swagger API
- Postman

experience for me. I am currently working on new projects.

Frontend Mentor   Jul 2022 - Aug 2022
Robotics Lab, Tashkent, Uzbekistan
I worked for a short time at the *Robotics Lab* training center.
 In this short time,
- I understood how to communicate with students,
- even if only a little.
- In 1 month, I and the students found answers to such questions as what is the web industry itself,
- why we need to learn programming.
- And we started programming basic

Soft skills

- Dealing culture,
- to quickly communicate with strangers,
- responsibility for work,
- teaching ability,
- ability to work with a team.
